Release date: February 2020

Adidas Funding for Femme Protects Life

In the Summer 2018, Femme Protects Life applied to Adidas for funding for the evacuation of people affected with medical conditions during the crisis. The fund was set up to assist travellers who would be migrating to a new country because of social changes and needed emergency assistance.

The application was supported by millions across Europe, but unfortunately, your support was not enough to win funding for travel assistance.

We would like to thank all of you loyally supported our efforts and purchased merchandise, clothing to show your dedication to the charitable cause.

We wish you the best and hope you travel safely

Regards,

Nancy K. Sikah
